## For Nervousness

### Horsford's **Phosphate**

It nourishes and strengthens the nerves, enriches the blood, vitalizes and invigorates the whole system. Causes good appetite, perfect digestion and restful sleep.

Hot-weather comforts as well as the ne-cessities appeal to all. Full supplies for every want, whether at home or abroad, are displayed at that comprehensive retail dry goods house, Farr's. Special values and exceedingly low prices prevait.

#### BARRINGTON IS CONVALESCING.

until August 10, by consent, as Doctor Eggers, the jail physician, reported that the prisoner was still too iil to leave his cell. No witnesses were summoned, as it was expected by both the State's and defendant's attorneys that the case would be continued and consequently no one was in court when it was called except the afterneys and newspaper men. Doctor Esgers thinks that Barrington is convalescing and that he will be able to go to trial on the

mysterious letter yesterday. It was dated and mailed at Sullivan, Ind., July 28. It was on a single sheet of paper, which apparently had been torn from another sheet, as in the upper left hand corner were the words "also watching," which, Beno Altbeimer. Barrington's attorney, thinks, is a continuation of a sentence on the page that was torn off. The rest of the letter, or that part of it received by the prisoner, read as follows: "Sullivan, Ind.—Lord Barrington, leave that place. Now this is all. Signed, Comfort."

follows: "Sullivan, Ind.—Lord Barrington, leave that place. Now this is all. Signed. Comfort."

The handwriting was in a large scrawl. The envelope contained the name of Glenn R. Graham, asking for a return in ten days if not delivered. It was addressed to the Four Courts officials and forwarded by them to Claytor.

A telegram to The Republic from Sullivan, Ind., states that Glenn V. Graham resides in that city and that he moved there two weeks ago with his mother from this city, where he was employed at the Lindell Hotel as a waiter. He said that he did not know Lord Barrington, but admitted he had read articles in the newspapers about Barrington. The message further stated that Graham appears to be mentally unbalanced. He said he wrote the letter two or three days ago and signed it "Comfort" and placed his name and address on the envelope for return. When asked what he wrote in the letter, Graham said that he did not remember, but he hoped that Barrington would set out of trouble, and also asked him if he thought that he would be acquitted. Graham says he was disappointed in a love affair at St. Louis, being filled by a girl who also worked at the Lindell.

May Settle Differences.

resentatives of the passenger departments of the Western lines favoring a change in mileage-ticket form was held here to-day, It was said after the conference that some progress was made in settlement of differ-ences.

NEW YORK—The final installment of 10 per cent due on the \$50,000,000 of bonds underwritten by the International Mercantile Marine Syndicate, has been paid to J. P. Morgan & Co.

COLORADO SPRINGS, COLO.—The jury in the case against Chief of Police King and Detective Joei Atkinson, charged with sepreting witnesses and so protecting a criminal, brought in a verdict of guilty.

Funeral will take place from family residence, No. 568; Fairmount avenue, Friday, July 31, at 1 p. m. Interment private.

WEILER-On Thursday, July 30, 1902, at 10:20 celeck a. m., Mrs. Louis Weiler, tnee Florence Gerken), at her home, No. 314 Garneld avenue. Funeral Saturday at 2 p. m.

WESTON-Wednesday morning, July 25, 2003,

#### MATERIAL PROGRESS OF SOUTH; FIGURES TELL WONDERFUL STORY.

Paltimore, Md., July 39.-In this week's issue the Manufacturers' Record presents figures of assessed valuation of property for each of the Southern States in 1800. 1880, 1890, 1900 and 1902, as the basis of an estimate that the complete figures of the census of 1900 will show the South posses of in that year more than \$14,000,000,000 worth of property of all kinds, only about \$2.-600,000,000 less than that possessed by the whole country in 1860. These preliminary figures, obtained from official sources, en-able one to trace the growth of material wealth in the South during the post twenty

"These figures show an increase between 1890 and 1880 in processed valuation increasing about \$26,000,000 a year, the netual increase, of course, having been largely made with the lightening of the reconstruction burden. Between 1880 and 1880 the assessed aluation increased from \$3,51,175,098 to \$4,-659,514.833, or \$1,688,339,735, an average of \$160,000,000 a year.

"In the next ten years the increase was to \$5,457,553,031, or but \$708,008,198, an average of less than \$80,000,000 a year. But during the next two years, between 1900 and 1902, there was an advance of \$5,916,960,712, or \$450,467,-681, more than half the advance between 1890 and 1900. The total advance between 1880 and 1982 was \$2,865,785,614, or nearly 94 per cent.

"Material betterment of the South thus in dicated is more clearly shown in comparing the true valuation of property in the South with that of property in the rest of the country. The increase in true valuation be tween 1860 and 1880 was from \$6,286,214,108 to

19 per cent in the South, while in the rest of the country it was from \$9,873,401,950, to \$36,137,000,000, or \$26,263,596,040, equal to 266 per cent. "During the next ten years, with the

\$7,505,000,000, or \$1,218,785,892, equal to only

wonderful industrial, agricultural and railroad expansion in the South, the rates of Increase in the South and in the rest of the country became about the same. Between 1880 and 1890 the true valuation increased from \$7,505,000,000 to \$11,150,532,304, or \$3,645,-532,304, equal to 48 per cent in the South and in the rest of the country the increase was from \$36,127,000,000 to \$53,886,558,893, equal to \$17,749,558,893, or 49 per cent.

"If there were the same rate of increase between 1890 and 1900 as between 1880 and 1890, the true valuation of property in the South for 1900 would be \$16,787,810,000. If the actual increase were the same the true valuntion would be \$14,796,064,605. If the same proportion of assessed valuation to true valnation obtained in 1900 as in 1890, the true valuation for 1900 would be \$13,311,104,954. The total in 1909-of farm values, \$3,951,631,-632; of capital in manufacturing, \$1 153,002. 368; of railroads, \$2,734,888,000-was \$7,839,522,-000. That sum is 36 per cent greater than the sum of the values of these three leading classes of property in 1890. If that percentage obtained for the increase in the value of all the property of the South during the ten years, the true valuation of 1900 would be \$15,164,723,933."

"Another contributor to Southern wealth is iron. Comparing the production of pig iron in the South for the first half of 1902 and 1963, an increase of 200,000 tons is shown -more than one-fourth of the total increase of the United States."

### RAID ON ATCHISON DEPRESSES STOCKS.

Rock Island and Amalgamated Share in Losses Through Day's Heavy Selling.

LOANS ARE MARKED DOWN.

Official of the Western Road Denies Rumors That Dividends on Common Will Be Passed by Directors.

REPUBLIC SPECIAL.

New York, July 39.—A sharp break in Atchison and drives against Rock Island and Amalgamated Copper helped to unseitle the stock market to-day, and general declines were scored throughout the list. These declines extended to 1% point in the railroad list, and as high as 44 points

stock. It was generally stated that the sell ing represented liquidation by a prominent insider, and the fact was evident that long stock was coming out in large quantities. Another thing mentioned in connection ith the weakness of the stock banks had been marking down Atchison loans, and this precipitated liquidation by certain prominent operator. No information on this particular point could be obtained at any of the banks.

Although it was freely predicted in the Although it was freely predicted in the early morning that a drive agalpst Rock Island was contemplated by a certain bear clique in the street, the strength of the stock in the first hour led many to believe that it was merely gossip. In the second hour, however, the selling of the stock and the evident attempts to break the price showed that a movement against it was under way. The common stock touched 25% in the early trading, but broke subsequently to 23%.

MORTGAGE IN VIEW

MORTGAGE IN VIEW. One of the causes alleged to inspire the drive on Rock Island issues was the statement that the company intended to issue ment that the company intended to issue a unifying and refunding mortgage amounting to \$25,000,000 in a short time. This mortgage will be for a long term and it is understood, will be a 4-per-cent issue. Inasmuch, however, as this bond issue is merely to retire existing bonds, the street could not see how it could be developed into a bear argument. It is understood that only a small part of any money which may be be raised will be needed by the company for actual disbursements, probably less than \$3,00,000. This latter amount may, in fact, not be needed since the pur-

company for actual disbursements, probably less than \$3,00,00. This latter amount may, in fact, not be needed since the purchase of the Evansville and Terre Haute by the Frisco.

According to a statement made by a director of Atchison, the delay in publishing the report of June earnings, which was attracting some comment, is caused by the independent auditors, who are always employed to check over the accounts for the fiscal year ending June 30. It is said that the figures for the twelve months ending June 30, 1986, will be forthcoming within the next two or three days.

From the same source of information it was learned that gross earnings for the fiscal year 1963 will show a large increase over those of 1962. On account of the large sums spent for rails, additional ties to the mile, and work of a similar character, net earnings of 1963 will not be as large as those reported last year.

After the payment of operating expenses, fixed charges and sinking funds. Atchison earned 9.75 per cent on the common stock last year Judging from the reports of eleven months, together with the annognocement that operating expenses for June will show an increase as a result of repairs caused by floods in Kansas City and vicinity from 8 to 8½ per cent is considered a fair estimate of carnings on the common stock for 1963.

An officer of the Atchison system said in answer to the current talk about the property:

"There never has been a time in the last."

"There never has been a time in the last "There never has been a time in the last five years in my knowledge when the Atch-ison started a new year with prospects as bright as they are at the present time. The assertion heard in the street to-day about passing the dividends on the common stock is absolutely untrue."

#### DROPS ELEVATOR LEVER TO RECEIVE A FORTUNE.

Walter Condon of Chicago, a Wander

er From Home, Inherits \$300,000.

REPUBLIC SPECIAL.
Chicago, July 30.—Walter W. Condon, 23 years old, suddenly found himself boosted to-day from an elevator man in the Ashland block to a capitalist-the possessor of

Up to noon he had been shooting up and down the long shaft, shouting "Second floor," etc., at the rate of \$10 a week. This afternoon, arrayed in his Sunday suit, he left home, No. 536 North Clark street, for Coldwater, Mich., to claim the fortune left him by his grandmother. Condon has been going under the name

bimself. He bade his aged parents goodby seven years ago, leaving bome against their wishes. The boy never wrote to his Tank C. Bielock, No. 148 Bert avenue, Friear, and the o'clock a. m. Interment private-will be o'clock a. m. Interment private-will be o'clock a. m. Interment private-will be of the case will be o'clock a. m. Interment private-will be of the case parents. It was believed he came to Chicago, and a few years ago the Chicago. Bert of the death of his mother.

Another year passed and the police received a message announcing the death of the father. Wednesday it was learned that

the grandmother of the young man had died, leaving the wanderer a fortune.

The central station detectives were unable to get any clew to the whereabouts of Condon, but recently the relatives received information that the young man was working as an clevator man in Chicago. The news came through a young woman who had known him. The relatives also found that Condon had eloped a short time ago and was married under romantic circumstances.

The Elevator Conductors' Union was appealed to, but no such member was diswas married under romantic circumstances.
The Elevator Conductors Union was appealed to, but no such member was discovered. Then George Condon, a cousin of Walter, began a canivass from building to building and came upon the long-lost man.

CLARK MAY NOT LONG

Patient at the City Hospital Who Hie coughed Constantly for Six Days Is Sinking.

James Clark, 22 years old, who came to the City Hospital July 23 to seek relief from a violent attack of the hiccoughs, is sinking, and it is feared by the hospital authorities that he cannot long survive.

The hiccoughs were completely stopped three days ago, and for a time he showed improvement. Wednesday evening, how-ever, the attendants noticed that his mind was beginning to wander, and soon he was in an unconscious state.

About midnight he regained consciousness. but he was unable to say much to those who questioned him. Soon he again re-lapsed into unconsciousness, and in that condition he remained yesterday with occasional lucid intervals.

When his temperature was taken at 3 p. m. It was found to be 100. It has also been noticed that Mr. Clark has lost in flesh since coming to the hospital, and his nervous system has been greatly weakened by the incessant blccoughing, from which he suffered when he first came. He was also weak from the lack of nourishment. For six days before coming to the City Hospital Mr. Clark had been suffering from

MILITIA LOSES THE TRAIL OF THE FUGITIVE CONVICTS

Rates and Booklet on Application.

Their Lender Once Deserted From the Army and Helped the Filipinos in Guerrilla Warfare.

Sacramento, Cal., July 30.-Latest reports show that the militia have had absolutely no trace of the escaped Folsom convicts since Monday night. The fugitives, it is thought, are doubling back from the vicinity of Lotus to the neighborhood of Rattlesnake Ear and the

ford them shelter and food. Guard Cochrance, who was stabled in the prison fight, is slightly worse, and his recovery is still doubtful. J. W. Woods, the leader of the escaped convicts, according to prisoners at Folsom, has been a soldier in the United States reg-

Zentgraff mine. The country has deserted

cabins and several orchards which will af-

has been a soldier in the United States reg-ulars in the Philippines. According to the story, he deserted from the Federal troops and joined the Filipinos.

He was regarded as a hero among the convicts, who say he was once surrounded by a detachment of troops and managed to break through their lines at night and, gathering a force of Filipinos, captured the United States soldiers, and had them shot to death.

Later Woods was captured, and was tried by a mixed court-martial on a charge of desertion and aiding the enemy. He was convicted, but the Secretary of War disapproved of the findings for the reason that Woods, being a regular, could not be held CASTORIA For Infants and Children.
